

Commercializing  
Living Therapies

# CCRM Australia Attract

Regenerative medicine is an emerging field of medical science – incorporating the use of cells, biological factors, and other biological building blocks, along with bioengineered materials and technologies for widespread clinical applications. However, translation and commercialisation pathways are challenging and filled with uncertainty associated with rapid technology advancements and an absence of harmonised regulatory guidelines. With the aim of bridging 'commercialisation gaps' and overcoming significant development bottlenecks in the sector, CCRM Australia Attract provides specialised business services to customers and partners in industry and academia including:

- Facilitating clinical trials, including ethics approval
- Provision of introductory referrals and connections to industry, venture capital, and academic collaborators
- Technology evaluation and technical advice on technologies that fall within CCRM's core platforms
- Market assessment of novel technologies
- Regulatory and competitive landscape analysis
- Commercialisation and technology expertise

## About CCRM Australia

CCRM Australia is an Australian not-for-profit organisation supporting the development of foundational technologies to accelerate the commercialisation of regenerative medicine products and therapies. CCRM Australia's focus is to bridge the commercialisation gap through a network of scientists, entrepreneurs, academic institutions and industry partners and address bottlenecks in the industry. CCRM Australia is modelled on the highly successful CCRM in Canada and is legally separate to CCRM. As a member of the Global CCRM network, CCRM Australia is a partner to a leading-edge industry consortium. CCRM Australia is supported by MTPConnect and the Victorian State Government.

Founding members

*This venture has received funding through the MTPConnect Project Fund Program – a dollar-for-dollar matched program investing in big, bold ideas to improve the productivity, competitiveness and innovative capacity of Australia's medical technology, biotechnology and pharmaceutical sector.
